

# University Repository of Diploma Theses

## Instruction for students:

In the **My Studies** tab, in the menu on the left there is an option: **Diploma thesis**.

After entering the option, if the dean's office has completed filling in data (the subject of the thesis, data of the promoter / promoters, data of the reviewer / reviewers, obtained professional title, dates), and the student has the status "Dyplomant", it is possible to add a file with the diploma thesis.

It is required that the entire thesis should be in one PDF file.
